

WOMEN IN INVESTMENT MANAGEMENT

CHOOSING A CAREER IN INVESTMENT MANAGEMENT

Now more than ever, finance needs more women. Be a part of the change.

The CFA Society of Boston is proud to celebrate the inaugural group of undergraduate women participating in summer internships with four leading investment management firms. Join us as three accomplished women professionals talk about their career choices and their experiences in investment management. Meet alumni from these firms and participating schools, and explore why and how you might consider investment management as a career.
