Dedicated to
ROGER W. BABSON
Founder and President of Babson Institute
Long will the inhabitants of Wellesley and the Hills be stirred by the memories of the doings of the class of 1921 and even longer still will there exist among us the firm friendships made during the past year. Some day there may arise from our ranks a writer who will chronicle the events in the lives of the young executive at length; for sheer adventure and spiciness such a story would be without rival.

During the last ten days of September the future captains of industry, known locally as "The Babson Babes" (this term has a peculiar derivation), and hailing from every quarter of the United States, including Plymouth, Indiana, were initiated into the mysteries of business life and office routine. The best of intentions and the highest of ideals were prevalent in those days and were it not for "tea fights" and the ice on Lake Waban we might still possess our pristine virtue. The effects of the presence of so many girls' schools in the vicinity has left many of us no longer heartfree.

With the advent of spring the newly-created Student Government Board took over the discipline of the school and "The Great Al" Marsh sent out a call for recruits for the season on the diamond. To date our conquest of our greatest rivals, the B. S. O., is in the balance, the series standing three games to two in their favor. In other sports, was there ever one of us who did not excell in canoeing? In addition to this the tennis court on Maugus Avenue is worked overtime. And, of course, there are indoor sports as well as outdoor.

The future historical references to the past of the class of 1921 will doubtless speak of the eleven-passenger Metz or to the era of mustaches. Who else could wear white sox or bright neckwear, but ——. These remarks allude to but a few of the happenings of the school year, which not only broke up the monotony of work, but served to strengthen the common bond among all of us.

Thanks are due Mr. Babson and the faculty, for the broad and comprehensive training we have had this year and for the excellence of that spirit of theirs which has been infused in us.

May the coming years be as replete with the spirit of good fellow-ship as the one just past.

Noted authority tells of phenomenal rise of National Advertising

Prof. William C. Bambrough, head of the advertising division of the Babson Institute, in a stirring lecture, before a group of students, yesterday, told of the phenomenal rise of national advertising and of its relative importance.

The eloquent instructor said in part: "Ladies (nodding to Miss Eeze), and Gents, it's great to exercise your powers, and to talk to you today on 'The Rise of National Advertising.' As you perhaps already know, I have the uncanny swatted in the snoot when it comes to the inside dope of this great profession.

"But to return to my subject of the importance of national advertising. As some of you have been told, yesterday, I was formerly connected with

John Howard Wilkins, Beau Brummel of eighty million American women, has been chosen by a board, consisting of Howard Chandler Christy, Harrison Fisher and his brother, Bud, as America's Handsomest Man.

After the decision had been reached, Bud Fisher, speaking for his colleagues, said: "Wilkins has the combined qualities of Apollo, of Hercules, of Atlas and of Frenchman." He has the glossy shingled hair of Wallace Reid; the bewitching eyes of Ben Turpin and the shapely knees of Aon Pennington.

industrial Captains Start Careers

James R. Larimore has decided to make Newton his permanent home, and the good citizens of Greenfield, Ind., are justly happy. A great deal of Mr. Larimore's time is devoted to the Newton Players, and he will long be remembered for his dual role as the king of ice and the bloodhound, in "Uncle Thomas' Dogmilee," which is none other than Boston for "Uncle Tom's Cabin." A great many of the graduates are falling into jobs, but it remains for the master-mind, Charlie Corey, to create a position with the great Du Pont interests. Corey will make a thorough inspection of all the powder makers, and the buildings of spider webs, by the use of a lighted torch.

McAdoo Arrives in England to Assist Pussyfoot Johnson

LIVERWART, Eng., July 15.—Noticeable among the insurance passengers on the Jut Hepatic, which arrived today, was Robert H. McAdoo of New York City.

Mr. McAdoo has come into our midst for the sole purpose of aiding "Pussyfoot" Johnson, in the coding of the demon rum. I will do everything in my power," said the gentle American, "to down liquor." And to keep it down," he continued. Mr. McAdoo also intimated that he had been able to induce his Babson Institute classmates to make the trip.

Mr. McAdoo would be in charge of the Prince of Tales, after which both went to Child's restaurant, where they gave a dinner in their own honor.

Babson Ball Player Traded in Big Deal

Walrus Reed flatly denies that he has been sold by the White Sox to the Red Sox.

When interviewed by our sporting editor, at Nan's Kitchen, while eating "suckers," Mr. Reed stated the following: "There has been some newspaper talk about me transferring from White Sox to Red Sox. Regardless of the pressure that may be brought to bear by the traders, I want to remain, if possible, to make the change."

OUR MOTTO
"Washington—first in peace; first in war and sixth in the American League."

IS THERE NO JUSTICE?

Water—the purest and best of all things that God created. We have seen it glisten in tiny teardrops on the sleeping lids of infants. We have seen it trickle down the blushing cheeks of youth and go in rushing torrents down the wrinkled cheeks of old age. We have seen it in wee dewdrops, like polished diamonds, when the morning sun burst in the resplendent glory o'er the eastern hills. We have seen it in the wandering stream rippling over pebbly bottoms: in the river rushing over precipitous falls in its mad rush to join the mighty Father of Waters. We have seen it in the mighty ocean, on whose broad bosom float the battle fleets of all nations and the commerce of the world—BUT, ladies and gents, just between us and the gate-post, we want to say right now, that as a beverage it's a damned failure.

TALKS ON ADVERTISING

national advertising. I presume that all of you have noticed the immense campaign launched by the Heinz Co. Ha! Ha! That reminds me of the Frenchman, who said to my dear friend, Ray Hitchcock, 'The Lord pickle you,' because he didn't know the difference between pickle and preserve. (Laughter heartily.) Great chap—this Hitchy.

The other night, while I was dancing with Lennie Hovejoy's wife, the thought came to me that I am not so young as I once was. My life is declining into the 'sere and yellow leaf,' as the poet, Riley said. (Storm of applause.)

"There is no question that national advertising... (Miss Esty enters again). Oh, yes, Miss E. drop the Baldwin Locomotive Co. and the Chickering Piano people a line, asking for samples. Thank you, Miss E.

"Great help to me—this Miss E. Kind of a right-hand-man, so to speak.

"Just what is advertising, anyway? I think my good friend, Johnnie Siddall, editor of the American Magazine, has summed up the whole works majestically in his definition. Johnnie says, 'An advertisement is the picture of a pretty girl eating, wearing, holding or driving something that somebody wants to sell.' You know, the tired business man used to beat it out to a burlesque show; nowadays he parks under the parlor lamp with the latest issue of Vanity Fair or the Cosmopolitan.

"Great fellow—this Siddall. We were great pals when I was editor of 'Telephone Topics.' Rotarian, you know.

"Have you fellows ever seen one of these walking beam support tubes? When I was with M. S. Little, I sold the Franklin Motor Co. an order of 600,000. Think of it?

"The big trouble with national advertising, in my opinion, gentz—" (At this point—10:30—the class bell rang for the second time, the students tore the hinges off the door, getting out of the room, after which, Mr. Bambergh reluctantly sat down.)

LETTERS TO THE IDIOTOR

Idiotor, Weekly-Wheeze: I want to refute the statements made in the idiotorial in last week's issue to the effect that modern girls do not devote any thought to higher things. Do we not lift our eye-brows, heighten our complexions and raise our voices? Also don't we elevate our skirts and build up our heels?

Yours for a Square Deal,

P. D. Q., Pine Manor. 21.

Idiotor: Commenting on the article, "What a Man Loses in Going to College," in the Saturday Evening Post, allow me to make a few additions. I have lost (1), $654, shooting error; (2), my reputation; (3), two quarts of hooch; and (4), the girl at home. Thanking you in advance for past favors, I beg to remain,

PETRIFIED.

SOCIAL CHATTER

A hunk of news of considerable import to the “400” of Adé­on’ds, Ont., is the marriage of Wallie Reed to Miss Theda Bara, the charming daughter of Mr. and Mrs. Paul Bara, and a movie actress of much fame. The romance, which is typical of a college campus, resulted from a chance meeting while both were taking the I. C. S. chemistry course. Having paid his subscription The Weakly-Wheezo wishes him well.

CAPTAINS START WORK

NATIONAL CONVENTION

Mr. Cleveland's standing in a street car.

Mr. Day will help out around the house until the huckleberry season comes on. Then he will journey to Atlantic City, to recuperate.

Harry Dean intends to give up the automobile business and apply for a job as deck hand on a submarine. Late in August, he expects to take Helen Keller on a sight-seeing trip, to show her the domestic life of eels.

Gross will take subscriptions to Snappy Stories, Police Gazette, Captain Billy's Whiz-bang, Jim Jam Jems and Live Stories, at the national Presbyterian conference, at Winona Lake, Ind.

Harper will do nothing.

Marsh will help Harper.

McAdoo will sail, in July, and offers to divide his thirst for one-half of anyone's beer.

Peterson will collect snipes on State Street, Chicago, to be used in the manufacture of snuff. If the outlook is not good at that location, he will move over near the Blackstone hotel, where the smokers are more wasteful. During the convention of the Society for the Protection of Homeless Goldfish, his headquarters will be at the La Salle Hotel, as he feels that quantity is more important than quality.

Seward Merrell will exhibit the four Blue Ribbons which he won at the Boston dog show. He will also attempt to account for a nickel he spent while at Corneva University, in 1919. During his spare moments he will try to make Klin taste like milk.

Pardee has accepted a position in the United States Weather Bureau, as he is an expert on wind. Next to William Jennings Bryan, he is the greatest authority on hot air currents in the universe. Clinton, Mich., where Pardee graduated from the House of Correction, has four newspapers. A traveling man left them there last week.

Theodore Pfleuger, namesake of Abraham, will have a list of attractive bond issues to thrust upon incontinent Clevelanders. Among them are: Arizona Guilty-Edge Mining, Doubletable 4's: Ponzi International. Deferred 167's: and Pabstweiser Brewing Wood Alcohol 7's.

Van Boemel will go on the road selling ladies' underwear. "Cox—the Man, fish and hair-nets, inner tubes, trained white mice and lightning rods. In his sample case he will also carry a complete line of ear muffs, lawn mowers, Vose pianos, smoked hams and salmon for the others. He also takes orders for upholstered pianos carrying a winged collar, sheet music, Fords, and tombstones.

Whiting has been given a very responsible position with a Tennessee hardwood flooring concern. It will be Henry's duty to tap on all trees with a hammer in the surrounding vicinity to ascertain whether or not they are sound. Between 5—9 daily he will make speeches near the Elizabethton town pump, in an effort to repeal the town curfew ordinance. The law provides that the curfew bell shall ring at 9 o'clock each night; 9:15 on Saturday and band concert nights. The citizens and Mr. Whiting are protesting, on the grounds that it awakens them in the middle of the night.

Reed has secured an engagement to give exhibitions in dancing and tightrope walking, at Castoria, La. While there he hopes to entertain many of his former L. C. S. room-mates.

Eddie Thompson is in a quandry as to whether to accept a job as barber with the Little Gem Ice Co. (shaving ice) or to play the cymbals with Ringling Bros., hand. At Hill Top farm he will teach the lambs to gambol and talk "smut with the oats." On Saturday night he will test out the pick-up qualities of his Buick.

Millea holds large audience speechless

JOLIET, Ill., June 15.—John E. Millea of Babson Institute gave a stirring lecture here, last night, on "The Value of Industrial Movies." An audience of 2400 men listened to the speaker for over five hours, and not one of them attempted to leave the hall before his conclusion.

The warden wouldn't let them.

YOUTH CAUGHT WITH UNDRESSED CHICKENS

H. Keith Marsh, alias Abie Kabibble, Lloyd Reed, Dinty Moore et al., with a police record too lengthy to mention, was discovered in an ice box with several undressed chickens, at the Boston Terminal Refrigeration plant, yesterday.

When questioned the lad said that two weeks before he made an inspection trip with a Babson Institute group and falling a bit behind to look for a glass eye, which he dropped, was accidentally locked up with the rest of the fowl.
