SENIOR LEADERSHIP WHO CALL WELLESLEY HOME

BABSON APPOINTS NEW CHAIR OF THE BOARD, MARLA M. CAPOZZI

In October 2017, Marla M. Capozzi MBA’96, a longtime global strategy consultant at McKinsey & Company and member of the Babson Board of Trustees for the last seven years, succeeded Joseph Winn MBA’74, P’15 as chair of the board.

In making this appointment, Babson became the only Massachusetts business school to have its two most senior governance roles held simultaneously by women leaders. In addition to being a founder and leader of McKinsey’s Global Innovation practice, Capozzi has taught strategy at Babson and served as vice chair of the board of directors for Project Bread: The Walk for Hunger, a local Boston-based hunger organization.

“A Babson does a great job of supporting faculty who volunteer in the community, like when I speak about sports analytics at Wellesley High seminar day and act as umpire director for Wellesley Little League. Analytical skills come in handy when you’re getting teens assigned to 40 games per week all over town!”

– Rick Cleary, Weissman Professor of Business Analytics

“A Babson is a small college that does great things. Its international reputation, larger than many colleges twice its size, draws academic leaders and students from all over the world to the campus. This is a hidden gem located in the heart of Wellesley.”

– Bala Iyer, Dean of Faculty
SUPPORTING LOCAL ORGANIZATIONS

Babson is a Wellesley Chamber of Commerce board member and provides financial support to chamber activities. Other local involvement through contributions include the Wellesley Veterans’ Parade and the Wellesley Spelling Bee.

Babson College and Wellesley College provide support to Wellesley Community Children’s Center (WCCC), a child care center serving 90 children, with families from both the Needham and Wellesley communities. During the 2016–2017 fiscal year, WCCC’s Early Childhood Program served children of faculty and staff from both colleges, which included six children from Needham and 33 from Wellesley.

A full-service Babson Park post office (ZIP code 02457) operates rent free in a Babson-owned building on campus.

In 2017, Babson was one of the many organizations that supported the 10th annual candy drive run by Dr. Ejaz Ali P’12 and Dr. Femina Ali P’12 from Wellesley Dental Group. The Babson community was among those who donated thousands of pounds of Halloween candy, along with handwritten notes, to our troops overseas.

The program, designed for urban youth in Boston Public Schools, teaches rising sophomores skills such as coding, social innovation, and communications. Working in teams to identify and solve real community issues, the program culminated in a pitch presentation of food-based venture ideas to a panel of expert judges.
BABSON IN MIAMI

Students participate in alumni networking events, company treks, consulting projects, and neighborhood tours while earning 16 credits. The spring 2017 cohort visited Google in San Francisco, where they were hosted by Nate Lemieux ’15 and Ryan Narod ’16.

During the month of April, Babson launched a campaign that dominated the entire 4th and King Caltrain station. Leading with the theme, “The Right Connections Can Take You to All the Right Places,” the campaign featured 16 local alumni who demonstrate the true power of the Babson network. Featured alumni included: Jamie Siminoff ’99 of Ring, Gautam Gupta ’07 and Ken Chen ’06 of NatureBox, and Jenny Flores MBA’12 of Bank of the West.

» A large, two-story fitness and recreation area with state-of-the-art cardio equipment and weight room

» Dedicated varsity locker rooms, expanded sports medicine area, and an advanced strength, cardio, and conditioning area for varsity sports teams
» Three courts for recreational sports
» Improved locker room facilities for all students
» Large, flexible space to host major college events in any season

“BRAC will create an entirely new fitness, recreation, and athletic experience for students and student-athletes. Given the size and scope of the project, I am really excited about the design’s possibilities and believe that BRAC will create new opportunities for us to celebrate, educate, recreate, and congregate as a community.”

FACULTY BOOK SUGGESTIONS

**Player Piano / Kurt Vonnegut**

Who's recommending: Michael Bayer, Lecturer, Finance  
Why they love it: An excellent exploration of the purpose of humanity in the face of automation. Perhaps even more relevant today than when it was written.

**The Sixth Extinction: An Unnatural History / Elizabeth Kolbert**

Who's recommending: Fritz Fleischmann, Professor, English  
Why they love it: This book won a Pulitzer Prize in 2015 and tells the story of how humans have replaced evolution—we have become the force that decides which species will survive and which will disappear. I have taught it twice, and it packs a punch. A must-read for any educated person who wants to know what's going on in the world today.

**The Chessboard and the Web: Strategies of Connection in a Networked World / Anne-Marie Slaughter**

Who's recommending: Steven Gordon, Professor, Information Systems  
Why they love it: Although the title of this book makes it seem as if it's about the internet and the book's arguments rest to some degree on the connectivity provided by the web, it's really about politics and new ways to think about how political power is best wielded.

**The Undoing Project / Michael Lewis**

Who's recommending: Diana Harrington, Professor, Applied Investments  
Why they love it: Lewis is even more engaging than usual in this book about a unique and important collaboration of two psychology researchers, Dan Kahneman and Amos Tversky, whose ideas have and will change the way we think about financial decision making and decision making in general. Great read on an important topic.

**The Visiting Privilege / Joy Williams**

Who's recommending: Mary O’Donoghue, Professor, English  
Why they love it: This book gathers stories from a decades-long writing career, as well as new work. Williams is beloved by writers and readers alike, for the beauty of her language and her refusal to offer easy resolutions to very strange predicaments. Williams knows more than most writers how to begin a short story, but gosh, does she know how to close one. She's a literary treasure.
