

Babson Certificate in Youth Entrepreneurship Education

The certificate program is designed for K–12 teachers, school leaders, and youth development professionals who want to bring entrepreneurial thinking into their classrooms and communities. Participants will earn a Certificate in Youth Entrepreneurship Education from Babson College, the #1 school for entrepreneurship. During the immersive program, educators will learn how to create an entrepreneurial culture in their classroom while experiencing key elements of Babson's Entrepreneurship Program for Innovators & Changemakers (EPIC) youth curriculum. In addition, participants will develop an entrepreneurial lesson plan that they will deliver to their students.

Empower the Next Generation Through Entrepreneurship Education

Participants in the program will explore a dynamic set of topics designed to build entrepreneurial thinking and teaching practices. Core topics include:

- The power of entrepreneurial thinking—in and outside the classroom
- Babson's approach to entrepreneurship: Entrepreneurial Thought & Action®
- The power of prototyping and customer persona design

Flexible, blended learning format

Complete the program in six live online sessions that are 2½ hours each

Experience the EPIC curriculum

Schools and youth organizations become eligible to license the EPIC curriculum once their educators have earned the certificate
