

Strategic Innovation by Design: Leading Future-Ready Schools

Strategic Innovation by Design: Leading Future-Ready Schools helps K-12 school leaders apply entrepreneurial thinking and human-centered design to address complex challenges, strengthen school culture, and create actionable plans for the future.

What You'll Explore

- | | | |
|------|----------|--|
| WEEK | 1 | Visioning Your Future: The Power of an Entrepreneurial School Culture
Explore the core principles of Entrepreneurial Thought & Action® (ET&A®) and its role in K-12 education |
| WEEK | 2 | Designing Student-Centric, Experiential Pedagogy Throughout Your School
Identify tools and frameworks for integrating real-world challenges into the curriculum |
| WEEK | 3 | Building a School Culture of Innovation and Problem Solving
Learn strategies to inspire and support entrepreneurial thinking among teachers, staff, parents, board members, and other key stakeholders |
| WEEK | 4 | Implementing Your Entrepreneurial School Culture
Explore methods and partnerships to implement the entrepreneurial culture across all aspects of schools |
| WEEK | 5 | Measuring Success and Telling Your Story
Share your narrative (Rocket Pitch) to communicate the vision of embedding entrepreneurial thinking within the school |
