Babson Students as Consultants

FREE STUDENT CONSULTING

Could your organization use a fresh perspective?

Let our student consultants help your business.

Through our renowned experiential learning courses, including the Management Consulting Field Experience (MCFE), student teams engage in 4 to 12 weeks of hands-on consulting. Working with an external organization and guided by faculty, they tackle real-world business challenges-- conducting analysis, developing insights, and delivering actionable recommendations.

At the conclusion of the project, students present their findings in a comprehensive written report and oral presentation.

CONSULTING PROJECTS THAT GET RESULTS

- » 40+ Advanced Experiential Courses
- » 4 to 12-week partnership opportunities

Recent short-term consulting project areas include: Strategy, sales, financial modeling, operations, marketing, supply chain management, human capital and more!

WORK WITH THE BEST

#2 BEST COLLEGE IN
THE UNITED STATES

– The Wall Street Journal, 2026

“The Babson students were professional, very organized, and really delivered excellent research and recommendations. I would highly recommend this for any business.”

– MIKE WINN
IMG Sports Management

*Applications received after deadlines
accepted on a rolling basis.*

WHAT IS EXPERIENTIAL LEARNING

At Babson, we're all about hands-on learning, from the classroom to internships to social activities and beyond. From day one, students are immersed in real-world experiences. Advanced Experiential courses cut across the curriculum and integrate various academic disciplines. That's where we need YOU!

WHO SHOULD PARTICIPATE

We seek projects across all industries and functions. Recent engagements included projects with organizations ranging from startups to Fortune 500 companies and nonprofits.

WHAT PROJECT DISCIPLINES ARE COVERED

Biotechnology, Data Analysis, Economics, Entrepreneurship, Financial Modeling, Human Capital, Management, Market Research, Marketing, Operations, Social Media Marketing, Strategy, Supply Chain Management, Sustainability, Technology and more!

Sample project descriptions and a list of past partners can be found at www.babson.edu/learningpartners

WHAT YOU DO

1. Assign one or more representative(s) to act as a liaison to the student team (approximately 1 hour per week through project duration)
2. Provide needed data/information in a timely manner
3. Participate in a mid-semester progress report meeting
4. Attend mid-semester and final presentations
5. Give feedback at the end of the project via program evaluations

HOW TO APPLY

- » Prepare Your Project Proposal
- » Submit Project by the Deadline
