

March 8, 2021

Dear Tenants:

Please be aware the Rockhill Property Management Office was notified over the weekend that two individuals who are employed by two separate tenants at 100 High Street have tested positive for the COVID-19 virus. We understand that the individuals were last in the building on March 2, 2021 and March 5, 2021, respectively. We further understand that the individuals have been asked to self-isolate and have not been on-site since such times. In addition, it is our understanding that the affected individuals were wearing face coverings when last in the common areas of the building.

As we have indicated in prior communications, the building's high traffic common areas have been cleaned regularly using products with EPA-approved viral pathogen claims, and with an emphasis on high touch points including door handles, elevator call buttons and restroom fixtures. We will continue to track the timing and suspected path of travel of any new cases and will conduct our enhanced cleaning protocol as previously described.

The safety and health of our tenants is a top priority. Please do not hesitate to contact Property Management if you have any questions.
