YOUR CURRICULUM

Your MSA learning experience provides you with a foundation of advanced-level accounting learning, as well as the context for how that knowledge is applicable to roles within different businesses.

Our curriculum incorporates courses that will help you:

- » Think entrepreneurially and bring innovation to the accounting field
- » Critically analyze data
- » Write strategic communications
- » Deliver persuasive business presentations

PARTNER WITH A REAL ORGANIZATION

for an experiential learning project to learn a company's business process from beginning to end.

TAKE AN INTEGRATED SET OF COURSES

in areas including Accounting Information Systems, Business Analytics, and Business Processes.

79% of our specialized master's program students received institutional grants/scholarships

“The MSA program is a great professional starter kit for the real world, especially in accounting. Babson offers you other parts of business, including marketing, business presentations, and mergers and acquisitions that fill in other business knowledge that you might not think you would get in an MSA.”
