

COMMUNITY STANDARDS

2019-2020

ANNUAL REPORT

We developed the following office values

RESILIENCY

the development of each individual's ability to embrace mistakes, failures, challenges, and hardships as opportunities to learn and grow.

ACCOUNTABILITY

the importance of taking ownership of our individual and collective actions.

EQUITY

the pursuit of a fair and just community - individuals hold different identities and backgrounds - such differences shape individuals' decision making, access to resources, and experiences with institutional processes.

RESPECT

the inherent dignity, worth, and value that each person holds regardless of their beliefs or circumstances.

We Encourage Students to...

adopt a growth mindset, no situation is beyond redemption when approached with integrity and a commitment to collectively be and do better.

hold themselves to the highest standard by committing to making ethical, well-informed decisions.

explore how their identities manifest in each situation and to act with compassion and empathy when interacting with individuals who hold different identities from their own.

seek first to understand the perspectives of others in order to cultivate a community where individuals bring their full selves, not leaving any part of themselves behind.
