

the mission of residence life is to develop safe and inclusive residential campus communities

Residence Life

AY 2021-2022

community assessment

We had 65 total resident assistants (RA) this past academic year. We surveyed all residential students to gain a clearer understanding of the types of communities RAs were building, and the impact that RAs have had on their residents. The survey was implemented in December 2021 through February 2022. 37% of our residential population responded.

90% agree that they experience their community to be safe & inclusive

93% agree that their RA is approachable

88% agree that their RA has been a resource for them

"My RA has truly made my living experience my junior year the best one at Babson - she has fostered such a supportive, engaged and enthusiastic living environment and I've gotten to know so many of my tower mates because of the loving atmosphere she has created and her thoughtful programming!"

"My RA is amazing and truly cares for his residents and their well-being!"

"My RA has been a tremendous resource for our tower and has made everyone feel supported and encouraged. She is the best RA I have had."
