Beyond the financial award, carrying the CWEL credential is highly-valued at Babson, reserved only for students that demonstrate a self-driven commitment to grow as entrepreneurial leaders within the program.

To maintain the CWEL scholarship and credential, the annual program requirements are as follows:

**ACTIVITY PARTICIPATION**

Complete the activities required for your class year, including three “all CWELS” community events, class-specific experiences, and at least one CWELS’ Choice activity. You will track and demonstrate your participation via the completion of the reflection portfolio and an annual portfolio dialogue meeting.

**REFLECTION PORTFOLIO**

Maintain an online personal reflection journal via Blackboard which showcases your participation, your competencies, and your growth as leaders. This serves as a portfolio of all you have accomplished.

**REFLECTION DIALOGUE**

Take part in an annual one-on-one or small group meeting with fellow CWELS and a CWEL faculty, staff, or an alumnae volunteer to share your progress. This exercise will help you develop rhetoric skills to communicate the value of your CWEL Scholar experience as a professional asset.
